

Students enrolling in Mathematics 2018

We are running consolidation and review programs for our Pre-tertiary Mathematics courses before normal classes begin in 2018. This will enable students to meet some of the College Mathematics teachers, make new friends and review their background skills in Mathematics, resulting in them being more confident about their skills and prepared for the year's work ahead.

Maths Methods 4C is an important component of the Maths curriculum offerings at Elizabeth College. It is a high level course recommended for students intending to study Maths, Physics, Engineering, Computing etc. at University. It is also needed for students wishing to study Commerce at some mainland universities. Even if it is not specifically required for further study, it provides valuable experience in mathematical thinking.

Maths Methods 3C is not sufficient as a prerequisite for further study in Mathematics at UTAS, nor for many courses interstate, however, it will still contribute to a student's ATAR.

It is important that you check the Mathematics pre-requisites for any future Undergraduate program of study.

Summer School Program

Maths Methods 4C: Wednesday, 31st January, & Thursday 1st February

Maths Methods 3C: Wednesday, 31st January

Maths General 3C: Thursday, 1st February

The day (beginning at 9.00am) will involve three 1½ hour sessions with 30 minute breaks for morning tea and lunch. It will finish at about 2.30pm. The canteen will not be open, so participants need to bring their lunch (and morning tea) or buy from nearby shops.

Students should meet at the College Office (Elizabeth Street entrance) at 8.50am on the first day for information about the location of their program.

Cost – none

Requirements – pen, paper, Casio ClassPad calculator, enthusiasm.

Participation is voluntary, but **strongly** recommended. For planning purposes we need to know how many students will be attending. **We would prefer that you complete the enrolment slip today**, however, if you need longer for discussion with your parents, please return the slip by **Monday, 11th December**.

Maths Summer School Enrolment
Elizabeth College
256 Elizabeth St
Hobart 7000

For further information on the Maths Summer Schools, please contact Mr. William (Will) Walker 6235 6543 or will.walker@education.tas.gov.au.

Please retain this form.
